#### Dialogue: Audi QR codes

Experience Audi even more directly:  
download a QR app to your smartphone  
and then scan the QR code or follow  
the given link in your browser.

The equipment for the vehicles illustrated in the Fascination section can be found on page 117.  
The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Until now we have been building quattro® for our cars. With the Audi Q7 we've built a car for quattro.

Sometimes, a single question is enough to change the world: why can't you enjoy the outstanding driving features of an all-wheel drive in a passenger car? This thought occurred to the Audi engineers while they were out testing the four-by-four Iltis. From this simple question came the idea for a permanent all-wheel drive suitable for standard production: quattro was born.

A success story began – and still continues today: with the Audi Q7. A new vehicle concept from the ground up, which, just like the quattro drive itself, has been born from the wealth of ideas, the courage and the passion of the Audi engineers.

The Audi Q7. From the inventor of quattro.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Q7

To take you on further, the Audi Q7 skilfully uses all of its power. Its innovative quattro drive concept takes care of this. The permanent all-wheel drive distributes the drive forces variably to the front and rear axle. Always just as it is required for the particular driving situation. This enables superb traction, good grip and impressive propulsion, both on and off the road.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

The Electronic Stabilisation Control (ESC) supports quattro in the Audi Q7. It was especially extended to include a selectable offroad mode for the Audi Q7. With this, the ESC ensures even more traction and braking power when off-road – and above all, even more fun.

The optional adaptive air suspension ensures even more independence (standard for Q7 4.2 TDI quattro and Q7 V12 TDI quattro). It directly intervenes in damping the individual wheels. By almost eliminating permanent car body movements and automatically reducing rolling or pitching motions when cornering, braking or starting up, it ensures a comfortable driving feeling and better grip.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Thanks to TFSI and TDI technology, the Audi Q7 deploys its tremendous power and dynamism over practically the entire engine speed range. As a measure to increase efficiency and reduce consumption and CO<sub>2</sub> emissions, recuperation is available for all the Audi Q7's 6- and 8-cylinder engines. Depending on the engine variant, this ensures a significant reduction of the CO<sub>2</sub> emissions.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

## The design of the Audi Q7 sets new standards. In tune with Audi tradition.

The dynamic roof line and high shoulder section bring the sporty form of a coupé to mind. The powerful front with distinctive, chrome-framed Audi Singleframe and vertical chrome struts arouses self-confidence and radiates a sense of presence. With the strong V-shaped pointed bonnet, the standard contrasting paint finish, the optional full paint finish with aluminium-look exterior or the drawn-back headlights with daytime running lights – LED technology upon request – the Audi Q7 is always striving to push forward, even at a standstill.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Its rear is puristic and succinct at the same time and is equipped with the characteristic LED rear lights. The bumper with the integrated underbody protection in conjunction with the encompassing tailgate gives the Audi Q7 an impression of high performance and power. The large wheels, which underline its overall performance, add particular accentuation.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Think twice before getting in the Audi Q7.  
You won't want to get out again.

With its generous amount of space the Audi Q7 gives you a feeling of freedom. The high-quality cockpit has been designed with the driver in mind and is colour-coordinated, with the centre console raised and easy to operate. Large-area application trims and refined decorative elements in chrome finish give the Audi Q7 that certain extra. A look at the sporty displays makes you think of just one thing: go!

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

The luxuriously equipped interior lives up to even the highest demands. Here, clear and functional shapes are combined with dynamic elegance and exclusive materials. Inlays in matt silk, black or optionally in aluminium Trigon or selected woods set visual accents. Together with the fine cloth and leather upholstery and trim they underline the high-quality appearance of the Audi Q7.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

Multifunctionality does not have to be complicated, as the Multi Media Interface (MMI) proves. The central control system of the high-performance SUV gives you rapid access to important vehicle information and functions.

The generous feeling of space is accentuated with the right sound experience. In the Bang & Olufsen Advanced Sound System, two acoustic lenses are automatically extended from the dashboard when the system is started, which ensure an exact and true-to-detail performance on any seat thanks to the precisely aligned horizontal irradiation. More than 1,000 watts and 14 separate loudspeakers provide an outstanding sound experience.

New freedom: the multifunctional seat and loading concept offers you up to 27 different configuration options. So you always have exactly as many seats and as much space as you require.

As an equipment variant you can choose between two or three rows of seats. Within these equipment variants, you can then choose again: you can equip the second row with comfort seats, turning the Audi Q7 into a 6-seater, which is then equipped with an additional generous centre console. Or you decide on a classic 5- or 7-seater with a bench seat in the second row.

The convenience entry function makes getting in easier, even for those sitting in the rear. The optionally available panoramic glass sunroof provides a clear view of the sky. This electrically operated glass roof reaches to the third row of seats. Thanks to the low air-drag coefficient the noise level remains very low, even with the panoramic glass sunroof open.

Sometimes you just cannot decide what to take with you. The Audi Q7 therefore grants you all the freedom you could require. Unique in its class, it offers 775 litres of luggage space behind the second row of seats. The load area comprises all of 330 litres when there are seven people in the vehicle. By folding the rear seats down – all rear seats can be lowered level to the loading area – the loading volume can be increased to up to 2,035 litres as standard. The generous loading width of 1.22 m easily provides room for up to four golf bags lying sideways. There is a large through-loading facility located in the second row of seats as standard. When folded down, the loading area offers enough space to stow, for example, snowboards or skis, quickly and with ease.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

On the racing track, our engines  
regularly astonish the world.  
And that is no different on the road.

2006. The first victory of a racing car with a diesel engine at the legendary Le Mans 24 hours. The car: an Audi R10 TDI. Audi was able to continue its series of victories in the years 2007, 2008, 2010 and 2011. The Audi Q7 V12 TDI quattro was built using this motor racing experience: it is the logical evolution of a trail-blazing vehicle. The Audi Q7 V12 TDI quattro is powered by the most powerful diesel engine of its class and has only one goal: to be the victor on any terrain.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 107 onwards.

Q7

Audi Q7 V12 TDI quattro

The first V12 diesel engine in the world in a standard production model. Thus begins a new chapter in the history of the diesel engine. With the 6.0 litre TDI engine, Audi is once again demonstrating its “Vorsprung durch Technik”. The Audi Q7 V12 TDI quattro reaches its maximum torque of 1,000 Nm at a mere 1,750 rpm and keeps it stable up to 3,250 rpm. This means excellent performance is at your disposal from an early stage and over a wide range. The engine moves the high-performance SUV with overwhelming supremacy and serenity, without losing its agility: 368 kW accelerate the Audi Q7 V12 TDI quattro from 0 to 100 km/h in just 5.5 seconds.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 107 onwards.

At the rear, special features include oval tailpipes, LED rear lights and a specially designed bumper. The stainless steel underbody protection at the front and rear makes a clearly visible statement.

The wheel arch extensions of the Audi Q7 V12 TDI quattro give it a dominant and powerful presence. The xenon plus headlights in conjunction with the LED daytime running lights give the front section an unmistakable appearance. Intelligent and attractive details such as the dominant exterior mirrors and roof rails in matt aluminium round off the imposing appearance.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 107 onwards.

A glance into the cockpit of the Audi Q7 V12 TDI quattro: the screen of the standard MMI navigation plus is positioned high in the centre console and displays a host of important information. The leather-covered multifunction sports steering wheel in 3-spoke Q design is equipped with chrome-look shift paddles. The standard electrically adjustable sports seats are covered in Verano leather or, on request, in two-tone fine Nappa leather; they provide great support even on challenging roads. Carbon inlays lend a special look to the centre console and the dashboard, likewise the pedals in aluminium look. The optional full leather package even includes a completely leather-covered dashboard.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 107 onwards.

## Audi Q7 V12 TDI quattro Audi exclusive concept®.

The decision in favour of an Audi is the logical consequence of enthusiasm for clear-cut design, technical superiority and dynamic sportiness. Audi exclusive offers numerous possibilities for all those who would like to give their Audi a personal touch through custom-made fittings. The Q7 Audi exclusive concept in Ipanema brown, metallic with V12 TDI engine is the natural continuation of this idea of an ideal: quite special equipment in an exciting combination for an exclusive car – the out-of-the-ordinary as a limited edition series product.

Exclusive pleasure in a limited edition: the unique features of the Q7 Audi exclusive concept in fine Nappa leather in alabaster white and chestnut brown with contrasting stitching and piping.

Lots of space and an individual look. The rear seat backrest covers and the luggage compartment floor are in American walnut with smoked oak inlays. The luggage compartment side trim is made of leather in alabaster white.

Elegantly coordinated interior: the selector lever gaiter in chestnut brown with contrasting stitching in alabaster white, combined with decorative inlays in American walnut with smoked oak inlays.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 107 onwards.

# Your Audi also bears our mark of special efficiency.

---

Our vehicles embody not only sportiness, progress and technical innovations, but also the intelligent use of resources.

One example: the TDI engines with common rail technology. Their combination of direct injection and turbocharging guarantees highly efficient diesel fuel combustion. The TFSI engines work according to the same principle and also impress through increased power and torque coupled with reduced consumption. Audi engines have been subject to an ongoing development process

for years. This means that today, they are more powerful than ever before – despite reduced overall weight and thus reduced consumption. Impressive proof of our strategy of obtaining more power from less engine displacement. The start-stop system and recuperation feature guarantee even more efficiency in the Q7 (except Q7 V12).

The automatic transmission tiptronic makes a decisive contribution to the reduction of consumption and emissions thanks to its low

engine speed level at higher driving speeds. And when the vehicle is at a standstill, the converter lock-up avoids unnecessary energy losses.

The convincing features of the optional xenon plus headlights with LED daytime running lights as well as the standard LED rear lights are not only their unmistakeable design but also their low energy requirements. The onboard computer with efficiency program will help you exploit further saving potentials by indicating which convenience functions are active and how high the overall consumption is.

You see, the Audi Q7 and Q7 V12 TDI quattro feature a whole range of technologies that will make your journey not only more comfortable and dynamic, but more efficient, too. Find out more on the next few pages.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

timing drive chain

high-pressure pump

integrated charging module

switchable water pump

Many hours of development.  
Thousands of miles of testing.  
And for what reason?

**The supercharger** is a central element in boost pressure generation. Or, put another way, it ensures outstanding torque even at low engine speeds. The supercharger is a highly integrated, mechanical charging module situated between the two cylinder banks. The rotor unit, the electrically controlled butterfly valve in the bypass bend and the engine-side heat exchanger of the indirect charge air cooling system are integrated in one single-piece cast metal housing. The four-blade rotors mounted on an anti-friction bearing compress by 160° and are covered with a coating which allows the gap dimensions in the construction to be reduced.

## In just a few seconds you will understand why.

---

In FSI technology, the fuel is injected directly into the combustion chamber and atomised into a fine spray. This way, the fuel – metered to almost droplet precision – can be called upon the millisecond that the engine requires it. This means better utilisation of the fuel and ultimately, reduced consumption.

TFSI technology is employed in the Audi Q7. It combines the advantages of FSI with a supercharger, which ensures even better power delivery.

The Audi Q7 is available with a high-rev V6 TFSI engine with 200 kW or 245 kW. It is not just the peak torque that is impressive, there is also the torque curve. With the 245 kW engine, at least 90 % of the 440 Nm maximum torque is available across an engine speed range of 2,000 to 6,000 rpm. Thanks to its very spontaneous responsiveness and exceptional power delivery across the entire engine speed range, the 6-cylinder engine promotes a particularly dynamic driving style.

The fuel consumption and CO<sub>2</sub> emission figures can be found on page 106.

**The injectors** open and close in fractions of a millisecond and inject fuel several times into the combustion chamber at pressures of up to 2,000 bar. In some cases, an injection process can involve the injection of the tiniest of amounts weighing less than a thousandth of a gram.

**Pre-injection** results in a “gentle” combustion process and consequently excellent combustion acoustics and agreeable engine running characteristics.

# TDI®

## In other words: Where is the tank?

One in every two Audi cars sold today is a diesel. What sounds perfectly normal now was cause for huge excitement 20 years ago, when Audi revolutionised the market with the first 2.5 litre TDI engine. Since then, developments such as common rail technology have made TDI even more efficient. Piezo injectors ensure the fuel is finely and precisely distributed. Consequently, since the first TDI, the engines have become more economical, whilst specific output has increased.

Choose for yourself which power you wish to carry you away in the Audi Q7: a 3.0 TDI quattro

with 150 kW or 180 kW (also available as a TDI clean diesel quattro) or a 4.2 TDI quattro with 250 kW.

All the engines comply with the EU5 emission standard, the TDI clean diesel quattro even complies with the EU6 emission standard, which does not come into force until 2014. The 6- and 8-cylinder engines are fitted with a recuperation system which converts kinetic energy into electrical energy. This increases efficiency and saves up to 3 % fuel – particularly in city traffic. Together with the start-stop system in the 3.0 TDI engines that

automatically switches the engine off when the vehicle is at a standstill, fuel consumption can be significantly reduced.

In addition to the standard catalytic converter and the diesel particulate filter, the Audi Q7 as a 3.0 TDI clean diesel quattro has a nitrogen oxide catalytic converter with AdBlue®\* tank. AdBlue® is a biodegradable additive, small doses of which are injected upstream of the nitrogen oxide catalytic converter. Combined with other innovations such as common rail technology and highly efficient exhaust-gas recirculation, a

reduction of the nitrogen oxide emissions by up to 90 % is achieved. With the 4.2 TDI quattro with 250 kW, you can also choose a highly efficient and powerful diesel engine. The peak torque of 800 Nm and the running smoothness of the V8 engine impress both over short and long distances.

turbocharger with improved  
adjustable turbine geometry

2,000 bar high-pressure injection system

engine with reduced friction

pressure-regulated oil pump

innovative thermal management with separate  
cooling system for cylinder head casing/cylinder head

3.0 TDI engine (180 kW)

The V12 engine is characterised by its superb smooth-running performance.

368 kW accelerate the Audi Q7 V12 TDI quattro from 0 to 100 km/h in just 5.5 seconds.

You can drive the Audi Q7 V12 TDI quattro up to a top speed of 250 km/h – after which the electronic regulation function comes into action.

6 litre displacement – more than you have ever had before in an Audi Q7. That creates space for power.

# The most powerful diesel engine of its class.

## From Audi of course.

So much power – with comparatively low fuel consumption. The Audi Q7 V12 TDI quattro consumes 11.3 litres of fuel (combined) per 100 km.

Concentrated energy: with a length of 684 mm, the diesel engine is very compact – an important precondition for integration into a standard production vehicle.

The crankcase is made of a high-tech material. It is manufactured using a patented casting process and has remarkable advantages: It is more rigid, more resistant to fatigue and lighter than comparable materials.

The maintenance-free chain drive is situated on the rear side of the engine to save space.

The crankshaft is made from a chromium molybdenum steel alloy, the pistons from aluminium.

Power output

Torque

# Why only use two wheels when a car has four?

The quattro® permanent all-wheel drive.

Those who know Audi know quattro. And once you have driven with quattro, you do not want to drive with anything else. Why? Because this drive puts the engine's power on the road in such a convincing way.

quattro is a permanent all-wheel drive. If the wheels on one axle of the vehicle lose grip on the road and threaten to spin, then the drive force is transferred to the other axle – automatically and

permanently distributed through the centre differential. The basic distribution is 40:60 – 40 % of the driving power comes from the front axle, 60 % from the rear. The benefits are better traction during acceleration and improved safety due to exceptional grip.

But what makes quattro unique is really the driving feel. "As if you are stuck to the road," some customers say. We put it like this:

quattro gives you more feel for the road and thus increased safety.

The quattro drivetrain

---

# Dynamics and comfort were once opposites. With Audi adaptive air suspension they are united.

Can the road communicate with the suspension? And above all: can the suspension understand the road? In the Audi Q7 and Audi Q7 V12 TDI quattro it can – the suspension adapts to the driving situation and the road (standard from 250 kW) as well as possible. We call it Audi adaptive air suspension.

An electronically controlled air suspension system operates individually on each of the four wheels

and is combined with an infinitely variable adaptive damping system. Sensors on the body and on the axles continually monitor the current driving situation and send information to the system during the journey. Furthermore, the air springs guarantee that, even when carrying heavy loads, the vehicle's driving characteristics will not be impaired.

The advantages of the Audi adaptive air suspension can be felt after just a few metres. And then most certainly when you drive round a corner or bend. The rolling or pitching motions of the body are substantially reduced, the vibration behaviour and the spring travel remain optimal. In future, you may still be able to see uneven roads, but you will feel them less.

The fuel consumption and CO<sub>2</sub> emission figures can be found from page 106 onwards.

The advantages of the Audi **adaptive air suspension** can be felt after just a few metres. And then most certainly when you drive round a corner or bend. The rolling or pitching motions of the body are substantially reduced, the vibration behaviour and the spring travel remain optimal. In future, you may still be able to see uneven roads, but you will feel them less.

# Nothing can stop a top athlete.

## Except for a top braking system.

---

The 18-inch high-performance braking system in the Audi Q7 takes a powerful hold with its 6-piston fixed callipers on the front axle. A single-piston floating calliper is used on the rear axle. The brake discs comprise a cast friction ring which is connected to the brake disc chamber by means of steel pins. This so-called floating mounting ensures that the friction ring remains tension-free to a major extent, improving stability under extreme temperature loads. The axial perforation and cooling channels for

internal ventilation also increase the brake discs' performance. The use of aluminium not only reduces the weight of the brake discs, it also improves the weight balance of the unsprung masses.

For even more demanding loads, the Audi Q7 V12 TDI quattro is equipped with a 20-inch ceramic brake\* with an 8-piston fixed calliper as standard (optional for 4.2 TDI quattro). With this braking system, the brake discs on the front axle are

made of a carbon-fibre reinforced ceramic material. This is based on hard and abrasionproof silicon carbide with high-strength carbon fibres embedded. This combination results in an enormous abrasion resistance which allows extremely high mileages to be achieved and at the same time reduces sensitivity to high thermal loads. In addition, the material is lighter than steel discs.

20-inch ceramic brake\*

18-inch steel brake

The brake discs on the front axle have a diameter of 350 mm and are 34 mm thick. The brake callipers have a black anodised finish.

The brake discs on the front axle have a diameter of 420 mm and are 40 mm thick. The high-gloss anthracite painted brake callipers bear the "Audi ceramic" logo.

\*Standard for Q7 V12 TDI quattro, optional for Q7 4.2 TDI quattro (250 kW) and Q7 3.0 TFSI quattro (245 kW). Please consult your Audi partner or national Audi website to find out more about the special features of the ceramic brake.

Research project:  
"Audi Urban Mobility"

## Unmanned to the summit.

**How useful it can be to network a vehicle with its environment** is demonstrated by the research project "Audi Urban Mobility". As part of this project, a vehicle was created based on the Audi TTS. In September 2010, this vehicle managed to climb the 20-kilometre Pikes Peak road in the Rocky Mountains unaided and without a driver. The project featured an electronics system that helps drivers to avoid hazardous situations. We are applying this know-how to make continual improvements to Audi connect. So that you are more and more connected, and your journeys safer.

# Audi connect:

## The intelligent connection between the Internet, the vehicle and you.

The world is a network – and your Audi is part of it. Audi connect not only brings the Internet into your vehicle, it also exploits the possibilities that your smartphone, tablet or laptop provide. In future, Audi connect will also make it possible to exchange data between vehicles as well as between vehicle and infrastructure. For even more driving pleasure and comfort.

With Audi connect you can use the MMI to easily search the Internet for special destinations, or

get the latest news and the current weather forecast for your intended navigation destination. Data is transferred via the UMTS module of the Bluetooth car phone online, which can be ordered as an option for the MMI navigation plus.

Audi connect also offers you wireless Internet access via a Wi-Fi hotspot. During the ride, passengers can retrieve information and e-mails or surf the Internet using their mobile device. There is an application for Audi music stream<sup>1</sup>

available for some smartphones. Detailed information about availability, usage rights and charges can be found in the equipment section or obtained from your Audi partner.

<sup>1</sup>For information on when this feature will be available, please contact your Audi partner.

<sup>2</sup>Google and the Google logo are registered trademarks of Google Inc.

myAudi

**Audi music stream<sup>1</sup>**

Access to global radio  
stations via smartphone app  
and Wi-Fi connection

**Point-of-interest search**  
including voice control

**Navigation with Google  
Earth images<sup>2</sup>**

**Traffic information online**

Detailed information on traffic  
flows, e.g. for individual stretches  
of road; faster information on the  
occurrence and clearing of traffic  
jams

**Google Street View<sup>2</sup>**

For 360-degree exploration

**News online**

Text and images about  
current world events

**Weather**

Forecasts and maps for the  
required destination

**Wi-Fi hotspot**

**Travel information**

The latest travel tips and  
diagrams from the Internet  
for the route chosen

If you want to experience the full  
diversity of Audi connect, scan this  
QR code using your smartphone.  
Or follow this link in your browser:  
[www.audi.com/audiconnectq7](http://www.audi.com/audiconnectq7)

**Car:** This function allows the direct control of driver assistance systems, vehicle settings, climate control, auxiliary heating and service.

**Navigation system:** The optional hard disk navigation system MMI navigation plus provides a 3D map view and a three-dimensional representation of well-known buildings and sites.

**Radio:** The integrated radio receiver is set up for VHF, LW and MW and optionally transmits digital radio with a continually updated station list.

# Follow your intuition.

## And you'll get there.

We try to match up to our claim of “Vorsprung durch Technik” in every aspect of an Audi – such as in the case of the MMI – the Multi Media Interface, for example. The MMI is used to control a wide variety of media in the car, as well as the navigation system and other convenience functions.

On request, MMI navigation plus is available with 3D map display for the Audi Q7. It allows access

to the various integrated audio sources such as hard drive, DVD player (audio/video) and two SDHC card readers (MP3 and WMA files). Mobile phone systems can be connected to the vehicle via the Bluetooth interface. And the management of your address book with up to 2,000 entries is now really easy. The Audi music interface can be used to connect a range of external media to the MMI, e.g. an iPhone, iPod or a USB hard disc.

**Media:** Display of available media sources such as jukebox, inserted SDHC cards, Audi music interface or CDs and DVDs; display of optional TV tuners

**Audi connect: Traffic information online**

You not only get the right route to your destination but the quickest one too. In addition to traffic flow information, traffic information online provides faster information on the occurrence and clearing of traffic jams for dynamic route guidance as well as greater coverage of the road network.

**Audi connect: Travel information/weather**

provides weather forecasts and relevant information, such as charts and weather maps relating to the destination. **Audi connect: News online** provides comprehensive news items about current world events.

**Audi connect: Navigation with Google Earth images and Street View** enables navigation with high-resolution aerial and satellite images, photographs, topographical features, roads and their designations, and business entries. Street View gives you a realistic picture of your destination even before you get there. You can access detailed information on places to visit using the **point-of-interest (POI)** search function with voice control. **Destination input by means of myAudi or Google Maps** enables you to plan your route on your home computer with individual navigation destinations, and then send it to the vehicle. When you start your journey, the route plan is loaded into MMI navigation plus.

# You sit at the wheel.

## Others are working in the background.

Most road accidents are caused by human error. Modern assistance systems can help to reduce their severity. Audi puts various different technologies to work to help you reach your destination safely. The assistance systems are

closely networked, which increases their intelligence, versatility and performance. With the help of these systems, your journey will be safer and more relaxed.

**Audi adaptive cruise control\*** Working within system limits and a speed range between 0 to 200 km/h, Audi adaptive cruise control\* uses a radar sensor to detect vehicles ahead and maintain this distance more or less constant by braking or accelerating. Both the distance to the vehicle in front and the acceleration dynamics can be adapted individually to driving style and situation. If the anticipatory sensor system detects a possible collision hazard, Audi braking guard initially triggers an optical and acoustic warning signal and then a warning jolt to warn and encourage the driver to brake as necessary. This makes for more relaxed driving, both on long journeys as well as in dense traffic.

**Audi lane assist\*** detects if you have inadvertently left the traffic lane and lets you know in adequate time via steering wheel vibrations.

**Audi side assist\*** informs you from speeds of 30 km/h and above with a signal in the exterior mirror as soon as the system detects another vehicle in the adjacent lane.

**Please note:** the systems can only work within system limits. They can be of assistance, but drivers are still required to be attentive at all times.

\*Optional equipment.

It is the equipment that turns an Audi into your Audi.

# **Audi exclusive**

Exclusivity does not know the meaning of the word compromise. But it is familiar with endless variety.

Each year Audi sells hundreds of thousands of vehicles. Yet they only sell yours once. How is that possible? With a quattro GmbH service that makes your Audi unmistakable: Audi exclusive.

Combine selected woods, coloured leather and a customised paint finish from the large selection of colours available from Audi exclusive to suit your personal wishes. Your unique vehicle will be the result.

Your Audi partner and the Audi exclusive Studio of the Audi Forum Neckarsulm await your wishes.

## S line. Visibly more sportiness.

Driving an Audi Q7 is a clear commitment to automotive sportiness. With the S line packages you can enhance the athletic appearance of your Audi Q7 even more: with a range of equipment that accentuates its dynamic lines, gives its interior a perceptibly sporty identity and further improves its driving performance. Decide on a plus in sportiness – with the S line packages.

#### **S line exterior package\***

**Front and rear bumpers, side radiator grilles, door cover strips and diffuser insert**  
in a striking, sporty design

**Front and rear bottom bumper sections and door cover strips in body colour, centre front spoiler lip and diffuser insert**  
painted in platinum grey

**LED front indicators**

**Headlight cleaning system**

## Lights

### xenon plus including headlight cleaning system

Headlights with durable gas discharge technology for dipped and high beam enable an intensive illumination of the road with evenness and range, both close-up and in the distance. The automatic dynamic headlight range control prevents oncoming traffic from being dazzled; Q7\*: LED daytime running lights with low power consumption; Q7 V12: LED daytime running lights with 12 LEDs each on the left and right of the bumper with low power consumption

### Headlights

Halogen headlights using free-form technology with clear glass cover, electric headlight range control, daytime running lights, indicator incorporated in the bumper with integrated parking light function

### adaptive light\*

dynamic cornering light provided by swivelling headlights; the headlights swivel into the approaching corner or bend to provide better illumination; operational between speeds of approx. 10 km/h and 110 km/h. (Q7: including turning light, illuminates the front side areas of the vehicle with a separate light source at low speeds and the steering wheel turned; at speeds of more than 110 km/h, motorway light is activated, for which the cut-off line is symmetrically raised, thus providing better illumination at larger distances.)

### High-beam assist

within system limits, it automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped-beam and vice versa. The system thereby improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience.

### Interior lighting

with delayed switch-off and contact switches on all doors, includes exiting lights at the front, footwell lights at the front and luggage compartment lighting as well as reading lights, 2 each at the front and rear and one for the optional 3<sup>rd</sup> row of seats, with improved illumination

### Audi exclusive cardan reading lights

2 lights located in the rear, providing additional illumination (in the area of the 2<sup>nd</sup> row of seats), cone of light from reading lamps can be manually adjusted. From quattro GmbH

### Lighting package

comprises door front end illumination below the exterior mirrors, ambient lighting of the centre console in LED technology, illuminated vent controls in the instrument panel and centre console at the rear, active door reflectors in the front and rear doors, LED front and rear footwell lighting, rear entrance lighting and illuminated rear ashtray and ambient lighting in the doors

### Door reflectors

front and rear, passive

## Lights

### LED rear lights

indicator, tail light, brake light and rear number plate light in energy-saving LED technology, reversing lights in white; rear fog lights and bumper light strip provides the rear light function when the tailgate is open; third high-level brake light on the roof spoiler

### Front fog lights

integrated in the front apron panel; for better illumination of the road ahead when visibility is poor

### Headlight cleaning system

uses water and high pressure, for better illumination, less scatter and good visibility

### Light/rain sensor

to control the automatic lights-on function and the windscreen wipers, includes coming home/leaving home function: automatic switching-on/delayed switching-off of the front fog lights, the tail light of the combination rear lights and number plate lighting when parking/opening the vehicle. (Q7 V12: without front fog lights)

## Mirrors

### Exterior mirrors with integrated LED indicators

electrically adjustable and heated, convex, flat or aspherical mirror glass; housing painted in body colour. (Q7 V12: also automatically dimming; housing in matt aluminium)

also optionally:

**electrically folding**

**automatically dimming**

**automatically dimming with memory function**

### Interior mirrors

dimming, in same colour as headlining

also optionally:

### automatically dimming, with light/rain sensor

Recognises with the aid of a photocell when the headlights behind are too bright and dims automatically, can be deactivated, with digital compass display on request; this provides a digital display of the current direction. The 8 points of the compass are shown in English (N, NE, E, SE, S, SW, W, NW).

## Roof system

### Panoramic glass sunroof\*

3-part, extends to the 3<sup>rd</sup> row of seats, electric activation to raise and open the front glass section and to raise the rear glass section, tinted glass, adjustable fine-meshed sun shield over the entire glass area, electric at the front and manual at the rear, convenience closing from outside via the central locking; the bright atmosphere in the interior ensures an open feeling of space and is designed for a pleasant supply of fresh air during the journey. (Optionally in darker tinted glass)

\*Shown with the Audi Q7.

Closing systems		Glazing	Further exterior equipment
<b>Radio-operated remote control</b> for the central locking, integrated in the vehicle key; with one touch of the button the system opens and locks doors, windows, luggage compartment and the tank flap – with variable code. A control light in the key indicates the locking status of the vehicle.	<b>Anti-theft alarm</b> including interior monitoring and tow-away protection via angle of inclination sensor; can be deactivated; signal horn (back-up horn) independent of vehicle electrical system; monitoring of doors, engine compartment and luggage compartment	<b>Acoustic windscreen with grey strip</b> for improved windscreen insulation and a reduction of outside noise	
<b>Convenience key</b> access and drive-away authorisation system by means of automatic data exchange between the vehicle and the key; the key only needs to be carried with you for opening and starting the vehicle; the engine is started and switched off via the engine start-stop button on the centre console; the vehicle is locked from outside via buttons on all door handles	<b>Preparation for tracking system</b> Preparation for the connection of a tracking system by means of which the vehicle can be located if stolen	<b>Rear window</b> heated, with time switch and integrated antenna	
<b>Electronic immobiliser</b> integrated in the engine control unit, automatic activation by the vehicle key	<b>Ignition lock</b> electronic; ignition key with integrated chip automatically stores relevant service data of the vehicle.	<b>Windscreen cleaning system</b> 2 speeds, automatic switching, touch-wipe function, wash/wipe function, automatic wiping approx. 5 seconds after the last wash/wipe process, including heated windscreen washer jets; rear window wiper with automatic wash/wipe	
<b>Tailgate with electric opening and closing function</b> opening via button on vehicle key, button in the driver's door panel or soft touch button in the tailgate handle recess, closing via button on inside of tailgate, with closing assistance and programmable tailgate opening angle	<b>Glazing</b> <b>Heat-insulating glass</b> green tinted	<b>Sun visors</b> can be folded and swivelled; on the driver and front-passenger side with covered, illuminated vanity mirror	<b>High-gloss package</b> Outer window capping trim in aluminium look (Q7 V12: in matt aluminium), outer B and C pillar trim in high-gloss black
<b>Garage door opener (HomeLink)</b> Programmable radio-operated remote control, control button integrated into the front of the roof module; can be used to open several garage doors and exterior gates; control of safety and lighting systems possible. Please contact your Audi partner for further information.	<b>Double/acoustic glazing</b> front and side windows made of laminated safety glass, 2 panes which are joined together by a plastic film; improves the insulation of outside noise and increases anti-theft protection; optionally with or without rear tinted windows	<b>Double sun visor</b> for driver and front passenger, simultaneous front and side protection possible; gap between visor and door pillar can be closed by means of pull-out extension.	<b>Provision for trailer towing hitch</b> including preliminary wiring, bumper cover and cooling equipment for a maximum retrofitted trailer load of 2,500 kg
	<b>Dark-tinted windows (privacy glazing)</b> tinted rear window, rear door glazing and rear side windows, optionally with or without double/acoustic glazing	<b>Sunblind, manual, for the rear window and the rear door windows</b> protects the passengers in the back from direct sunlight	<b>Trailer towing hitch*</b>  <b>mechanical:</b> removable and lockable spherical head, 13-pole plug with cover; the trailer towing hitch can be stored in the spare wheel well when removed; includes trailer stabilisation system via the Electronic Stabilisation Control (ESC)  <b>electric:</b> electrically swivelling ball head attachment, operated via button in luggage compartment; includes trailer stabilisation system via the Electronic Stabilisation Control (ESC); suitable for trailers with bulb or LED lighting

### Further exterior equipment

**Full paint finish with aluminium-look exterior**  
trim strips on front and rear bumpers as well as door covers and inlays in the door handles in aluminium look, including full paint finish of bottom bumper sections and door trim strips in body colour, underbody protection in contrasting colour

#### Audi exclusive black styling package

Radiator grille and number plate bracket in matt black, high-gloss black radiator grille frame, front fog light surrounds in matt black. (Q7 V12: underbody protection on the front and rear bumpers also in black.) From quattro GmbH

#### Bumpers

sporty accentuated bumpers and large side air inlets with high-gloss black painted horizontal bars; dynamically shaped wheelhouse widening; eye-catching widening in the lower area of doors and sills

#### Audi Singleframe

painted in high-gloss black, one-piece trim frame around the radiator grille, chrome-plated, with vertical chrome struts (Q7 V12: double chrome struts); with bright-metal Audi rings in the centre

#### Roof rails

one-piece – no joints, stable and aerodynamic, highlights the coupé-like roof line; in anodised aluminium (Q7 V12: in matt aluminium), optionally in black

#### Exhaust tailpipes

dual-branch design (for 3.0 TFSI quattro [245 kW] and 4.2 TDI quattro with trim; Q7 V12: with oval-shaped tailpipe trims)

#### Tailpipe trims

Suitable tailpipe trims are available from Audi Genuine Accessories. Please contact your Audi partner for further information.

#### Model name/logo

on the rear, quattro logo on the rear, on the radiator grille and the dashboard on the passenger side; “TDI clean diesel” emblem on the rear window (only for 3.0 TDI clean diesel quattro); with 3.0 TFSI quattro (245 kW) V6 T logo on the front wings; Q7 V12 quattro: V12 emblem on the front wings, V12 TDI quattro emblem on the tailgate; can also be supplied without the model name on request

#### Underbody protection

front and rear

### Seats/seating comfort

#### 3<sup>rd</sup> row of seats

2 seats in the rear with foldable head restraints and 2 additional ISOFIX child seat mountings, can be split and folded down flat to create a level loading floor, for persons up to 1.60 m tall, with improved convenience entry and fore/aft adjustment for the 2<sup>nd</sup> row of seats

#### Rear seats (2<sup>nd</sup> row), 5 or 7 seats (in combination with the 3<sup>rd</sup> row of seats)

with backrest angle adjustment and belt height adjustment for the external seats, rear seat backrest can be split and folded 40 : 60 or fully, provides a level loading floor; including through-loading facility

#### 4-way lumbar support

electric, for driver and front-passenger seat, with vertical and horizontal electric adjustment

#### Front seats, electrically adjustable

electric adjustment of fore/aft position, seat height, seat and backrest angle; including electric 4-way lumbar support

#### Fore/aft adjustment for the 2<sup>nd</sup> row of seats

manual fore/aft seat adjustment, 80 mm forwards and 20 mm backwards, to increase the legroom or luggage compartment capacity

\*If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

Seats/seating comfort

**Comfort seats in the 2<sup>nd</sup> row, 6 seats (in combination with the 3<sup>rd</sup> row of seats)**

2 comfortable single seats in the 2<sup>nd</sup> row, can be split and folded down flat to create a level loading floor, with convenience entry function, fore/aft adjustment and generous centre console with height-adjustable armrest, storage compartment and 2 cup holders. Only in combination with the 3<sup>rd</sup> row of seats. The vehicle then offers room for a total of 6 people.

**Memory function for the driver seat**

Driver seat with electric adjustment, memory function for seat adjustment, exterior mirrors and steering wheel (with electric steering column adjustment)

**Memory function for the front seats**

Driver and front-passenger seat with electric adjustment, memory function for seat adjustment, exterior mirrors and steering wheel (with electric steering column adjustment)

**Comfort centre armrest, front**

for driver and front passenger, with fold-open storage compartment on the driver's side, a cup holder at the front on the passenger side as well as an additional cup holder in the armrest on the passenger side (fold-open), with storage compartment (not with CD changer) underneath the centre armrest

**Centre armrest, front**

for the driver and front passenger, fold-open design, with storage compartment (not with CD changer) underneath the centre armrest, includes 2 cup holders

**Centre armrest, rear**

in the rear seat backrest, foldable, including 2 cup holders

## Seats/seating comfort

### Head restraints

manually height-adjustable at the front, foldable at the rear for the outer seats

### Seat heating, front

for driver and front-passenger seat, heats the seat cushions, backrests and additionally the seat side bolsters on sports seats or leather upholstery and trim; the seat heating can be individually set for every seat; especially pleasant in the winter

### Seat heating, front and rear

for driver and front-passenger seat as well as the outer seats in the 2<sup>nd</sup> row, heats the seat cushions, backrests and additionally the seat side bolsters on sports seats or leather upholstery and trim; the seat heating can be individually set for every seat; particularly pleasant in the winter

### ISOFIX child seat mounting

for the outer rear seats of the 2<sup>nd</sup> row, standard bracket for the safe and practical fastening of ISO standard child seats, including separate child-proof lock on the rear doors. You can obtain the appropriate child seat from your Audi partner.

### ISOFIX child seat mounting for the front-passenger seat

with deactivating switch for the front-passenger airbag, standard bracket for the practical fastening of ISO standard child seats. Compatible child seats can be obtained from your Audi partner.

## Steering wheels/selector levers/controls

### Leather-covered multifunction steering wheel in 4-spoke design

with full-size airbag, for the operation of the MMI system, radio, Audi music interface, voice control system and telephone or mobile phone (if additionally fitted); optionally heated (can be deactivated), controls in aluminium look. Optional: heated, with shift paddles (Q7 V12: shift paddles in chrome look) behind the steering wheel for changing gear

### Leather-covered multifunction sports steering wheel in 3-spoke Q design

with full-size airbag, for the operation of the MMI system, radio, Audi music interface, voice control system and telephone or mobile (if additionally fitted); optionally with shift paddles (Q7 V12: shift paddles in chrome look) behind the steering wheel for changing gear; controls in aluminium look

### Steering wheel adjustment, electric

adjustable in height and reach, with automatic entry and exit function – so that you can comfortably set your desired driving position

### Steering wheel rim with wooden segment

available as leather-covered multifunction steering wheel with/without gearshift function in 4-spoke design, with wooden segment in walnut, natural and leather, black. From quattro GmbH

### Audi exclusive steering wheel rim with wooden segment

customised with Audi exclusive wood and leather, available in 4-spoke design. Optionally in fine grain ash, nougat, fine grain myrtle, nutmeg brown and oak sepia. Leather and stitching available in various Audi exclusive colours; stitching on the steering wheel rim with specific Audi exclusive seam detail. From quattro GmbH

### Audi exclusive leather controls

Leather for the steering wheel rim, selector lever knob and gaiter available in all Audi exclusive colours; individual choice of colour for stitching in various Audi exclusive colours; stitching on the steering wheel rim with specific Audi exclusive seam detail. From quattro GmbH

Steering wheels/selector levers/controls

**Selector lever knob with wooden segment**  
in walnut, natural, olive ash, beige or tamo ash, dark brown. From quattro GmbH

**Audi exclusive selector lever knob with wooden segment**  
Selector lever knob customised with Audi exclusive wood. Optionally available in oak sepia, fine grain myrtle, nutmeg brown or fine grain ash, nougat. From quattro GmbH

**Selector lever knob**  
in aluminium look

**Selector lever knob in leather**  
with ring trim

Climate control

**4-zone deluxe automatic air conditioning**  
in addition to the deluxe automatic air conditioning, temperature adjustment and air distribution at the rear which can be separately adjusted on the left and right hand sides, air outlet nozzles in the C-pillar, air conditioning controls for the rear in the rear centre console, rear functions can also be adjusted using the front control panel; including an additional air conditioning compressor

**Deluxe automatic air conditioning**  
with sunlight-dependent control, separate temperature and air distribution for driver and front-passenger side, indirect ventilation, climate control of the rear space via air vents in the B-pillars and the centre console in the rear, automatic air recirculation control using an air quality sensor, button for quick deicing, combined pollution and pollen filter, key-coded settings

**Auxiliary heating/ventilation**  
with timer and separate radio-operated remote control with function feedback; provides a pleasant climate in the vehicle, even when the vehicle is stationary; the heating warms up the interior and keeps the windows free from ice. The parking ventilation supplies fresh air and lowers the interior temperature.

Luggage securing and storage systems

**Double loading floor**  
with dirt collecting tray underneath in vehicles without full-size spare wheel; storage compartment behind the 2<sup>nd</sup> row of seats in vehicles without 3<sup>rd</sup> row of seats, easy to clean

**Storage compartments**  
in the front and rear door trims, in the centre console at the front and in the roof module, drawer under the front-passenger seat

**Glove compartment**  
on the front-passenger side, with illumination and climate control, opening via switch on the dashboard

**Storage nets**  
in the front area of the centre console on the front passenger side

**Storage compartment**  
with rubber mat in the front centre console

**Storage package**  
storage net on the front-seat backrests, net in the luggage compartment side panel and combined net in the luggage compartment

**Luggage securing and storage systems**

**Storage package with folding table**  
folding table on the front-seat backrests, net in the luggage compartment side panel and combined net in the luggage compartment

---

**Cup holders**  
2 in the front centre armrest, 2 in the rear centre armrest and 2 in the side panels in the area of the optional 3<sup>rd</sup> row of seats – when not being used serves as holder for luggage compartment cover

---

**Bottle holders**  
for the storage of bottles of up to 1.5 litres in the front and rear door trims, 4 in total

---

**Clothes hooks**  
2 in the rear roof area, also one each on the B pillars on the left and right

---

**Partition net**  
for fastening on the body side or on the folded-down rear seat backrest, useful when the rear seat backrest is up or folded down on one side, as well as when it is completely folded down; removable

---

**Lashing points**  
4 in the luggage compartment, to secure loads

**Rail system with load-securing kit**  
with various lashing points; including telescopic rod and fastening strap, for individual partitioning of the luggage compartment and securing objects

---

**Reversible mat**  
for the luggage compartment, velour on one side, rubber on the other, to cover the luggage compartment, also when the rear seat backrest is folded down, with fold-out protective film for the loading sill and bumper

---

**Through-loading facility with removable ski and snowboard bag**  
secured by a strap, for the practical transportation of long items, e.g. up to 4 pairs of skis up to 200 cm in length or 2 snowboards; including rear centre armrest with cup holders

---

**Luggage compartment**  
large-volume with large loading width, luggage compartment locking with soft-touch function (unlocking with electrical assistance)

**Luggage compartment cover**  
can be pulled out with one hand, removable, with separated cover, adaptable to the backrest angle of the 2<sup>nd</sup> row of seats

---

**Luggage compartment cover, foldable**  
extendable, removable, can be folded in the middle, can be stowed away in the double loading floor, including mounting adapter and storage bag, also enclosed

Further interior equipment

**Audi exclusive coolbox**  
with compressor cooling technology, 2 possible temperature settings: -6 °C freeze, +6 °C cool; volume for four 0.5 litre bottles lying down. From quattro GmbH

**Footwell trim in velour carpet**  
optionally in Fresco carpet, coordinated with the interior colour. (Can be ordered via design packages)

**Floor mats, front and rear**  
made of velour or Fresco (2-tone in multicolour loop design), coordinated with the corresponding footwell trim

**Audi exclusive floor mats**  
Individual choice of colour for floor mats and piping from the range of Audi exclusive colours. From quattro GmbH

**Audi exclusive carpet and floor mats**  
Individual choice of colour for carpets, floor mats and piping from the Audi exclusive colour range. From quattro GmbH

**Door sill trims with aluminium inlay**

**Pedals in aluminium look**

**Window controls**  
electric at front and rear, with safety system to limit closing force, one-touch opening/closing function; convenience opening/ closing via central locking

**Door trims**  
in inner panel with cloth cover, integrated armrests, colour-coordinated with the interior colour

**Dashboard**  
padded, with black or beige trimmed cover

**Centre console**  
with air conditioning controls, ashtray, selector lever, MMI terminal, cigarette lighter, 12V socket

**Cigarette lighter and ashtray**  
in the front centre console

**Grab handles**  
foldable, 4 handles, each recessed into roof

**12V sockets**  
in the front centre console, on the rear right in the luggage compartment as well as 2 in the rear centre console

MMI® and navigation systems

**MMI® navigation plus**  
including navigation data (hard drive), high-resolution 7-inch colour display with high-quality map display and topographical map colouring, display of lots of sightseeing information and city models in 3D, choice of 3 alternative routes, scrolling along the route, joystick map manoeuvring function in the control button, spoken TMCpro reports, split-screen route information (manoeuvring points, points of interest on motorways, TMCpro on route), detailed junction map and lane recommendation, dynamic route guidance with TMCpro (where available), voice control system (destination entry by means of whole-word input in a sentence), additional arrow display in the driver information system with colour display, Bluetooth interface with Bluetooth audio streaming, Audi sound system, radio with triple tuner and phase diversity, hard drive can also be used to store music (20 GB), MP3, WMA, AAC and MPEG-4-compatible DVD player, can also be used for music and video DVDs, 2 SDHC card readers (for up to 32 GB), Audi music interface (connection of generation 4 and higher Apple iPods, music functionality of Apple iPhone as well as USB storage media and MP3 players). The use of Audi connect services (e.g. navigation using Google Earth images and Street View, weather and news, Audi traffic information online\*) is possible in combination with Bluetooth car phone online.

**MMI® radio**  
integrated control concept, comprises MMI terminal (control unit) and MMI display (6.5 inch colour display in the dashboard), extra display in the instrument cluster, basic personalisation of vehicle functions, integrated radio with phase diversity for better reception, single CD player (supports audio CDs)

**MMI® radio plus**  
integrated control concept, as MMI radio, additional Bluetooth interface, driver information system (monochrome), TP memo (automatically saves traffic news when driving), 2 SDHC memory card readers (up to 32 GB) support MP3, WMA and AAC; including AUX-IN connection

## MMI® and navigation systems

### MMI® navigation

including navigation data (DVD), 6.5-inch colour display with high-quality map display and numerous detailed display options, voice control (destination entry via spelling), dynamic route guidance and TMC (where available), MP3 and WMA-capable DVD player for navigation data (DVD), additional arrow display in the driver information system with colour display, Audi sound system, radio with twin tuner, phase diversity, 2 SDHC card readers for up to 32 GB.

### Navigation data (DVD)

contains navigation data for the following countries (where digitised): Albania, Andorra, Austria, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Moldova, Monaco, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, the UK, Ukraine, the Vatican

### Navigation data (hard drive)

contains navigation data for the following countries (where digitised): Europe: Albania, Andorra, Austria, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Kosovo, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Moldova, Monaco, Montenegro, the Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, the UK, Ukraine, the Vatican; North America: Bahamas, Canada, Mexico, Puerto Rico, USA (inc. Alaska, Hawaii, Virgin Islands); other regions: AGCC (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, United Arab Emirates), Australia, China, Hong Kong, Japan, Macao, Malaysia, New Zealand, Singapore, South Africa

### Driver information system

A monochrome display provides you with information from the onboard computer, auto check system, scope of display of the MMI system and digital speed display. The integrated efficiency program provides assistance in the form of consumption data overviews, a display of additional consumers and fuel-saving tips for adopting an economical driving style.

### Driver information system with colour display

A high-resolution display provides you with information from the trip computer, auto check system, scope of display of the MMI system and digital speed display. The integrated efficiency program provides assistance in the form of consumption data overviews, a display of additional consumers and fuel-saving tips for adopting an economical driving style.

## Radio and TV systems

### Bang & Olufsen Advanced Sound System

Surround sound reproduction via 14 loudspeakers each with its own amplifier and exclusive aluminium loudspeaker covers; centre speaker and 2 automatically extending acoustic lenses on the instrument panel for superb true-to-detail sound performance from every seat; 1 midrange speaker and woofer in each front door; 1 tweeter and woofer in the rear doors; 1 subwoofer in the spare wheel well and 2 surround sound loudspeakers in the D-pillar; dynamic driving noise compensation; 14-channel amplifier; highly efficient ICE-Power amplifiers with a total output of more than 1,000 W. The reproduction of 5.1 surround sound is possible in conjunction with MMI navigation plus and the integrated DVD drive.

### Digital Audio Broadcasting

In addition to the range of analogue stations, programmes from digitally broadcast radio transmitters with better sound quality can be received according to DAB standard, including DAB+ and DMB audio. Display of additional information accompanying the programme (e.g. artist, title, cover) in the form of a slide show and other programme-independent data services (e.g. weather, traffic, news). A 2<sup>nd</sup> DAB tuner permanently searches for alternative reception frequencies of the set station, and the station list is updated at the same time. Please note: reception depends on local digital network availability; contents and scope of the additional information depend on provision by the respective radio station.

### TV reception

Reception of digitally broadcast (DVB-T), uncoded television stations (MPEG-2 or MPEG-4 standard), DVB-T audio stations, teletext and Electronic Programme Guide (EPG). External AV-IN connection via adapter cable (available through Audi Genuine Accessories). Please note: TV reception depends on local digital network availability. No AV or TV output when driving (audio output also available when driving)

### Audi sound system

6-channel amplifier, 11 loudspeakers providing outstanding sound, 160 W total output

\* Available in Germany, Switzerland, Austria, Belgium, the Netherlands, Luxembourg, the UK, France and Italy.

Radio and TV systems

**Audi music interface**

for the connection of Apple iPods generation 4 and higher, Apple iPhones (music functionality) as well as USB storage media and MP3 players. The Audi music interface is located under the armrest and operated via MMI navigation plus, MMI radio plus or a leather-covered multifunction steering wheel. Note: can only be used in conjunction with a special adapter cable (Audi Genuine Accessories). Please contact your Audi partner or visit [www.audi.com/mp3](http://www.audi.com/mp3) on the Internet for information on compatible MP3 players.

**Adapter cable set for Audi music interface**

consisting of 2 connection cables for the connection of iPod/ iPhone or data carrier/media player with USB connection (type A); further adapter cables are available from Audi Genuine Accessories

**BOSE Surround Sound**

surround sound reproduction, dynamic driving noise compensation; 10-channel amplifier, 14 loudspeakers including a centre speaker in the dashboard and 2 surround loudspeakers in the rear headlining, subwoofer in the spare wheel well – for an extraordinary sound experience; 270 W total output. The reproduction of 5.1 surround sound is possible in conjunction with MMI navigation plus and the integrated DVD drive.

**Preparation for Rear Seat Entertainment**

includes pre-installation wiring and mounts for the holders in the driver and front-passenger seat backrests. The appropriate Audi Entertainment mobile (9-inch screen with integrated DVD player) and the holder are available as a plug-and-play unit from Audi Genuine Accessories (refer also to page 104).

**Rear Seat Entertainment**

with 2 monitors incorporated into the head restraints with 6.5 inch LCD screens; DVD player with 6-disc changer, 2 headphones and connections for external sources. From quattro GmbH

**Rear Seat Entertainment plus**

items as Rear Seat Entertainment, but with additional connection to the on-board sound system and TV connection. From quattro GmbH

**CD changer**

6-disc CD changer (MP3 and WMA-capable) underneath the centre armrest, can be controlled via the MMI system. Music files with digital rights management (DRM) cannot be played.

**CD softbag**

for individual storage of up to 24 CDs

## Telephone and communication

### Bluetooth interface

Bluetooth-capable mobile phones can be connected to the vehicle via the interface. Hands-free calls can be made in the vehicle via the microphone. Including Bluetooth audio streaming (depending on mobile phone compatibility). Visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth) for information on compatibility

### Preparation for mobile phone (Bluetooth)

including a hands-free device and voice control for the telephone functions and a fitting for an optional mobile-specific charger; operated via the MMI navigation plus (Q7: operation also via MMI navigation, MMI radio plus), the leather-covered multifunction steering wheel or, if available, via the voice control system; please contact your Audi partner for adapters and information on compatible mobile phones or visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth).

### Bluetooth car phone

Your Bluetooth-capable mobile phone can be conveniently connected to the vehicle's internal GSM module (provided the mobile phone has an SIM Access Profile), additional SIM card reader located in the surround of the MMI navigation. Transfer of phone book entries to the vehicle and management of call lists; simple operation using MMI navigation, leather-covered multifunction steering wheel or voice control system

### Handset for the Bluetooth car phone and Bluetooth car phone online

with colour display and integrated SIM card reader, for making private calls; texts can be easily written thanks to automatic word recognition. Handset is stored in the comfort centre armrest at the front

### Bluetooth car phone online

Your Bluetooth-compatible mobile phone can be conveniently connected to the vehicle's internal UMTS module (provided the mobile telephone has a SIM Access profile), additional SIM card reader located in the surround of the MMI navigation plus. Transfer of phone book entries to the vehicle and management of call lists. Including the Audi connect services traffic information online<sup>1</sup>, point-of-interest search, navigation by means of Google Earth images and Street View, destination entry, information services e.g. weather and Wi-Fi hotspot for Internet access in the rear using a mobile end device (e.g. laptop). Because of the high data volumes (currently concerns in particular navigation with the aid of Google Earth images and Wi-Fi hotspot), a mobile phone contract including a data flat rate is strongly recommended. The content and scope of the Audi connect services offered may vary and are only available for mobile phone contracts including a data option and only within the coverage of the mobile phone network; additional costs arise for the use of these services (charges and billing correspond to your personal mobile phone contract); they are only offered in Europe (in Russia only in the Moscow and St. Petersburg areas; not in: Turkey, Cyprus, Malta and Iceland); simple operation via MMI navigation plus, leather-covered multifunction steering wheel or voice control system. Visit [www.audi.com/bluetooth](http://www.audi.com/bluetooth) for information on compatibilities

## Assistance systems

### adaptive cruise control

automatic distance control (control range from 0 to 200 km/h); working within system limits, it uses a radar sensor to detect vehicles ahead and maintains this distance by braking and accelerating; 4 programs can be selected individually via the steering column stalk of the cruise control; including Audi braking guard with warning for driver of an imminent collision with a vehicle travelling in front provided by observation of surroundings

### Audi side assist<sup>2</sup>

lane change assistant, from a speed of 30 km/h, monitors within system limits the area at the side behind the vehicle as it is driving along and informs the driver via an LED display in the exterior mirror if the system has detected another vehicle in the adjacent lane; can be activated via the button in the driver's door

<sup>1</sup> Free usage rights for 36 months following initial activation. If this does not take place within the first 6 months of vehicle registration, the free usage right period is shortened accordingly. Your Audi partner will be happy to inform you about the extension options and any costs these may incur. <sup>2</sup> The image is an illustration, not a real representation.

## Assistance systems

### Audi lane assist<sup>1</sup>

Lane compliance assistant, the system creates within system limits a virtual driving lane using a front camera and steering angle sensor; if there is a danger of the vehicle leaving this lane and the indicator has not been actuated, the driver is informed in the form of steering wheel vibrations. (The grey strip along the windscreen is omitted)

### Parking system plus with reversing camera

acoustic and visual parking aid for the front and rear, image of area behind the vehicle shown on the MMI display, reversing camera integrated discreetly in the tailgate handle strip

### Parking system plus with front and reversing camera

Acoustic and visual parking system for the front and rear with display on the MMI display within system limits; measurement is by ultrasonic sensors integrated discreetly in the bumpers; an image of the area in front of and behind the vehicle is shown on the MMI display, with dynamic display modes for the reversing camera showing the calculated path (depending on steering angle) including help lines and guidelines and identification of the point at which to apply opposite lock when parallel parking, reversing camera integrated discreetly in the tailgate handle strip, additional display modes for the front left/right side and rear left/right side for the safe pulling out of tight parking spaces and courtyard entrances as well as for parking in car parks

### Parking system, rear

makes parking easier by indicating acoustically how far away the vehicle is from an obstacle at the rear; measurement is by ultrasonic sensors integrated discreetly in the bumpers

### Parking system plus

This extended parking aid offers an acoustic and an additional optical display of the space at the front and rear in the MMI display.

### cruise control

maintains any desired speed above around 30 km/h, provided engine power output and engine braking effect permit; operating via separate steering column stalk, at the same time the speed set is also displayed temporarily in the instrument cluster display. (Depiction in the driver information system, if ordered)

## Suspensions/brakes

### adaptive air suspension

electronically controlled air suspension with infinitely variable adaptive damping system on all 4 wheels, automatically controls vehicle level and damping; 5 modes (automatic, comfort, dynamic, offroad, lift), can be selected via the MMI system; including level control and loading level

### S line adaptive air suspension

enables a sporty dynamic to comfortable suspension setting. The S line model offers additional vehicle low level of 20 mm compared with adaptive air suspension.

### Dynamic suspension

for excellent driving dynamics and ride comfort, comprising:

**front axle:** independent wheel suspension, double wishbone axle with steering mechanism at the back, aluminium suspension arm, suspension subframe and stabiliser

**rear axle:** independent wheel suspension, double wishbone axle with released upper link level and steering link at the back, aluminium suspension arm, suspension subframe and stabiliser

### S line sports suspension

with more dynamic suspension tuning and vehicle lowered by 10 mm

### Brake system

dual-circuit, diagonally-split brake system, Antilock Brake System (ABS) with Electronic Brake Force Distribution (EBD), Electronic Differential Lock (EDL), Anti-Slip Regulation (ASR), Electronic Stabilisation Control (ESC), with hydraulic brake assist, ventilated 18-inch front disc brakes and ventilated rear 17-inch disc brakes (3.0 TFSI quattro [245 kW] and 4.2 TDI quattro with ventilated 18-inch disc brakes at the front and rear)

## Suspensions/brakes

### Parking brake

foot-operated parking brake

### Ceramic brake<sup>2</sup>

20-inch high-performance braking system with carbon-fibre reinforced ceramic brake discs, specially developed cooling channels for the ventilated and perforated brake discs, anthracite brake callipers, with "Audi ceramic" logo at the front

## Technology/safety

### Side airbags, rear<sup>3</sup>

for the outer seats in the 2<sup>nd</sup> row; supplement the side impact protection in the doors and the head airbag system

### Side airbags, front

integrated into the front-seat backrest

### Full-size airbags

for driver and front passenger, 2-stage deployment

### Head airbag system<sup>3</sup>

large-area head airbag system, unfolds as a protective cushion over the entire length of the side windows in the area from the 1<sup>st</sup> to the optional 3<sup>rd</sup> row of seats and protects the occupants in the front and outer rear seats in the event of a side impact

### Integrated head restraint system

In the event of a rear-end collision, the design of the seat restrains the upper torso and supports the head at an early stage, thereby increasing safety and reducing the danger of whiplash.

### Instrument cluster

with adjustable lighting; round instruments for rev counter, electronic speedometer, coolant temperature and fuel gauge display; time and date display, mileage and trip odometer, warning and control lights, maintenance interval display. (In conjunction with driver information system display for radio station frequency, outside temperature and fuel tank range)

### Safety steering column

increases the safety potential of the seat belts and airbags

<sup>1</sup>The image is an illustration, not a real representation. <sup>2</sup>Please consult your Audi partner or national Audi website to find out more about the special features of the ceramic brake.

<sup>3</sup>The image is an illustration, not a real representation, and shows the technical status of the airbags as a snap-shot.

Technology/safety

Battery energy management

consisting of battery diagnosis, quiescent current management and dynamic energy management; ensures a good supply of the vehicle with electrical energy during the journey and when stationary

Seat belts

3-point inertia reel seat belts for all seats (also for the optional 3<sup>rd</sup> row of seats), with belt height adjustment and belt force limiter for the 1<sup>st</sup> row of seats and the outer seats of the 2<sup>nd</sup> row, front seats also with pyrotechnic seat belt tensioner and seat belt reminder

Belt height adjustment

for the front and outer seats of the 2<sup>nd</sup> row of seats, manually adjustable

Warning and control lights

for, among others: airbag, ABS, ESC/ASR, activated parking brake, generator, light, high beam, belt warning, indicator lights, brake system, engine oil pressure, engine electronics, immobiliser, pre-heater system (TDI)

Warning triangle

with bracket on the inside of the tailgate

First-aid kit

in the storage compartment under the front-passenger seat

tiptronic

Q7: 8-speed automatic transmission with Dynamic Shift Program (DSP), option of manual control via shift paddles on the multifunction steering wheel (if ordered); Q7 V12: 6-speed tiptronic with dynamic shift program and sport program; hydraulic torque converter with lock-up clutch

Speed-sensitive power steering

Rack and pinion power steering with variable steering transmission; due to the speed-dependent control, the driver has a precise steering feel at high speeds and best possible assistance when parking.

quattro®

permanent all-wheel drive with asymmetric/dynamic torque distribution, self-locking centre differential, Electronic Differential Lock (EDL) via braking intervention on all driven wheels

Anti-Slip Regulation (ASR)

for excellent traction, prevents the drive wheels from spinning

Electronic Differential Lock (EDL)

On surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on any surface that is too slippery, thereby ensuring smooth, powerful progress; operates at speeds up to approx. 100 km/h.

Electronic Stabilisation Control (ESC)

with hydraulic brake assist; the ESC ensures greater stability in hazardous driving situations by targeted braking of individual wheels and intervention in the engine management system; with extended onroad and offroad functions, including offroad mode for improved traction on loose ground, with hill hold assist and hill descent control and roll-over stabilisation

## Technology/safety

### Recuperation

With 6 and 8-cylinder models, increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is used to assist the generator during subsequent acceleration, saving up to 3 % fuel.

### Start-stop system

reduces fuel consumption and CO<sub>2</sub> emissions by switching off the engine when the vehicle is stationary, e.g. at traffic lights. When you want to continue your journey, you only have to release the foot brake: the engine starts up again. The system is convenient, quiet and fast. It can be deactivated at any time via a switch. (Only for 3.0 TDI quattro 150 kW and 180 kW)

### Body, galvanised

fully-galvanised in areas at risk from corrosion, unitary construction, welded to the floor pan, front and rear areas feature defined crumple zones. (12 year guarantee against rust perforation)

### Side impact protection

in the doors, comprises high-strength aluminium impact bars, highly stress-resistant steel panel alloy in the B-pillars for a controlled energy loss outside

### Child-proof lock

mechanical for the rear doors and electric for the rear window controls

### Audi TDI clean diesel

In addition to the standard equipment with catalytic converter and diesel particulate filter, the new exhaust aftertreatment system installed in the model with TDI clean diesel leads to low exhaust emissions. Nitrogen oxides are reduced by the innovative nitrogen oxide catalytic converter (DeNOx catalytic converter) at the end of the exhaust pipe. A pump injects tiny quantities of the biologically degradable additive AdBlue®. This solution then decomposes in the hot exhaust flow to form ammonia, which splits the nitrogen oxides into nitrogen and water. This splitting is called selective catalytic reduction (SCR). Refill the separate AdBlue® tank as indicated by the information in the display of the instrument cluster. We recommend having the AdBlue tank refilled by your Audi partner (about every 15,000 km).

## Audi Extended Warranty

### Audi Extended Warranty

can only be ordered directly and exclusively when you purchase a new vehicle; extends the manufacturer's guarantee consistently and thus you are protected against risk and can control costs for service even after the first 2 years. 9 combinations of service life and mileage can be selected:

Additional 1 year Audi Extended Warranty, maximum total mileage 30,000 km

Additional 1 year Audi Extended Warranty, maximum total mileage 60,000 km

Additional 1 year Audi Extended Warranty, maximum total mileage 90,000 km

Additional 2 years Audi Extended Warranty, maximum total mileage 40,000 km

Additional 2 years Audi Extended Warranty, maximum total mileage 80,000 km

Additional 2 years Audi Extended Warranty, maximum total mileage 120,000 km

Additional 3 years Audi Extended Warranty, maximum total mileage 50,000 km

Additional 3 years Audi Extended Warranty, maximum total mileage 100,000 km

Additional 3 years Audi Extended Warranty, maximum total mileage 150,000 km

## Audi Genuine Accessories

If you are looking for adventure, you need the right equipment.

Provisions, map and sturdy shoes. So you are ready for the next adventure. And your car? You can equip that just as well – with top-quality accessories, adapted to each vehicle model right down to the last detail. Audi Genuine Accessories offer top technical quality and a high degree of individual design options. So that you can individually adapt your Audi Q7 to your personal requirements. The following pages will show you a small selection of Audi Genuine Accessories.

Further information can be obtained from  
the Audi Q7 accessories catalogue, at  
**[www.audi.com](http://www.audi.com)**, and from your Audi partner.

1

### 1 Offroad style package<sup>1</sup>

You will definitely attract attention with the offroad style package. The striking design of the Audi Q7 is given a sporty and robust flair thanks to its selected details. The entire package comprises wheel housing extensions, door cover strips, front and rear apron with stainless steel underbody protection and running boards, and specific tailpipes. After all, the Audi Q7 typifies the offroad idea like no other Audi. Decide on striking accents or take the entire package – and draw attention to the powerful side of your Audi Q7 in style. All eyes will be on you.

### 2 Audi child seat with ISOFIX

Grows with your child: the Audi child seat with ISOFIX, adjustable seat and 7-fold belt height adjustment. Suitable from 9 to 18 kg (approx. 1 to 4 years). The Audi baby seat is available for babies up to 13 kg (approx. 15 months), and the Audi child seat youngster for children from 15 to 36 kg (approx. 3½ to 12 years). The variously coloured seat covers are washable.

### 3 Ski and luggage box (450 l)<sup>2</sup>

This lockable ski box is particularly suitable for winter holiday use. It offers a large opening angle for easy loading and can be folded up on both sides. Suitable for skis up to 2.10 m long. Also included in the range are a ski and luggage box containing 480 l and a compact luggage box containing 370 l.

2

### 4 Audi Entertainment mobile

The Rear Seat Entertainment of the second generation is a 9-inch screen with integrated DVD player for installation on the front-seat backrests. Excellent image quality thanks to digital high resolution screen, high functionality and numerous connection options, e.g. the separately available Bluetooth headset. With the new holder for mobile end devices, it is easy to attach and can also be used outside the vehicle. Condition: preparation for Rear Seat Entertainment in the vehicle.

### 5 Partition grille

With the practical aids such as the partition grilles (longways and sideways), the luggage compartment can be separated from the rest of the interior and can also be divided lengthways. The partition grille is easy and convenient to attach – in other words without drilling.

### 6 Cast aluminium wheels in 5-arm design, 2-piece

The striking feature of the size 9 J x 20, 2-piece cast aluminium wheels in 5-arm design are the titanium-screwed cast trims. For tyres of the size 275/45 R 20. For more wheels in dynamic designs and winter wheels, please refer to the special accessories catalogue.

### 7 Bluetooth headset

The headset is the perfect supplement for the Audi Entertainment mobile. It can be folded up and stored practically in the bag provided. The rechargeable batteries can be used for up to 15 hours before recharging is necessary.

Notes

- <sup>1</sup> The figure stated was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).
- <sup>2</sup> Unladen vehicle weight includes driver (68 kg), 7 kg of luggage and fuel tank 90 % full, calculated in accordance with the current version of EC Directive 92/21/EEC. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- <sup>3</sup> The payload increases by 100 kg for 6 and 7-seaters.
- <sup>4</sup> The engine’s power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.
- <sup>5</sup> A vehicle’s fuel consumption and CO<sub>2</sub> emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO<sub>2</sub> is the greenhouse gas primarily responsible for global warming.
- <sup>6</sup> Figure applies to air suspension.
- <sup>7</sup> Regulated.
- <sup>8</sup> We recommend using sulphur-free diesel in accordance with DIN EN 590. If this is not available, use diesel in accordance with EN 590.
- <sup>9</sup> We recommend using sulphur-free super unleaded RON 95 in accordance with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel in accordance with DIN EN 228, power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel in accordance with 692/2008/EC.
- <sup>10</sup> The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.
- <sup>11</sup> We recommend having the separate AdBlue® tank refilled by your Audi partner as indicated by the information in the display of the instrument cluster (about every 15,000 km).

Important note

Inspections are due as shown by the service display.

Offroad properties		6 and 8-cylinder models
Climbing ability as %		60
Ground clearance in mm		204.8/239.8*
Overhang angle in °	front	21.0/max. 23.5*
	rear	23.4/max. 25.4*
Ramp angle in °		21.1/23.8*
Fording depth in mm		500/535*

\* Figure applies to air suspension.

Audi Q7 7-seater

**Dimensions in millimetres.**

Dimensions were measured with vehicle at unladen weight, ground clearance measured with vehicle carrying its maximum load. Luggage compartment volume in l: 330/2035 (measured by the VDA method using 200 x 100 x 50 mm blocks, second value is with the rear seat folded down and the vehicle loaded up to roof height).

Turning circle approx. 12 m

\*Maximum headroom. \*\*Air suspension "loading level". \*\*\*Elbow room width. \*\*\*\*Shoulder room width.

\*\*\*\*\*With roof rails the height of the vehicle is 1736 mm.

## At Audi, you get much more than just an Audi.

Anyone who chooses an Audi chooses a brand that offers its customers more. More individuality. More exclusivity. And more fascination.

### www.audi.com

Vorsprung durch Technik, and everything that it entails: the legendary Audi history, dates of unforgettable events and ground-breaking innovations – let your fascination grow with the Audi brand.

> [www.audi.com](http://www.audi.com)

### Audi configurator

Create your own personal Audi using the Audi configurator. All current models, engines, colours and equipment options are available for you to choose from.

> [www.audi.com](http://www.audi.com)

## Audi tv

On Audi tv you can discover new facets of our brand with the four rings: exciting commentaries on our models, technical innovations, fascinating events from the fields of motorsport, tradition, culture and lifestyle. Take a look behind the scenes. The latest news every day. Round the clock.

> [www.audi.tv](http://www.audi.tv)

## Audi Bank

Financing. Leasing. Insuring. Whichever new Audi you decide on, every quotation from the Audi Bank is individually tailored to you: Our special offer packages, for example, combine current financing and leasing options with comprehensive insurance protection and thus offer you unlimited mobility.

The models and equipment versions illustrated and described in this brochure and some of the services listed are not available in all countries. Some of the cars illustrated are equipped with optional features for which an extra charge is made. Details concerning the delivery specifications, appearance, performance, dimensions and weights, fuel consumption and running costs of the vehicle were correct to the best of our knowledge at the time of going to press. Deviations from the colours and shapes shown in the illustrations may occur. No liability is accepted for errors and printing errors. The right to introduce modifications is reserved. Not to be reproduced, including in part, without the written approval of AUDI AG.

This brochure is printed on paper made from pulp bleached without the use of chlorine.
